DETAILED ACTION

Non-Final Rejection (11/16/06)

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-10 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. It appears that the claims includes limitations pertaining to structure, frames, gears, hydraulic cylinder, electric motor, floor, water, dust, air, tires, shaft, steering wheel, body, digital, tire with foil, breaking the vehicle, etc. but the specification and/or claims fails to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
